 Alert notifications
 Emergency contacts
 Checking Status

What happens when I receive an alert notification on my smartphone?

Most of the time, your Smart Battery will be silently and reliably working to monitor your home's smoke alarm. In the case of alert, you'll receive a notification on your smartphone. You will also be able to open the app to silence your alarm, see which of your invited monitors are near the alarm, or call emergency contacts.

Alert Notifications

When your Smart Battery detects an alert from your smoke or CO alarm, you will receive a

notification on your smartphone.

If you tap on this notification, it'll open up the Roost app and reveal several options:

- Call Emergency Contact
- View Monitors
- Snooze Alarm

Snooze the Alarm

When you Snooze Alarm, this will silence your alarm for a limited amount of time. This is especially handy when you have a false alarm (say, burn the toast). Please note that this feature only works with alarms that are only powered by 9V batteries and are not hard-wired to A/C power.

If Roost is unable to provide a replacement and repair is not commercially practicable or cannot be timely made, Roost may refund the original purchase price you paid for the Product. In the event of a defect, to the extent permitted by law, these are your sole and exclusive remedies. Shipping and handling charges may apply except where prohibited by applicable law. This Limited Warranty is valid only in jurisdictions where the Product is sold by Roost itself or through its authorized reseller or agent, and is valid to the extent permitted by applicable laws of such jurisdictions. Any replacement Product will be warranted for the remainder of the original Warranty Period or for thirty (30) days, whichever is longer, or for any additional period of time that may be applicable in the jurisdiction in which purchaser resides.

You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. Repair of the goods may result in loss of data. Goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the goods.

For Canadian Consumers: Residents of Quebec are governed by that province's consumer protection legislation.

For purchases made by consumers in the United Kingdom and Ireland: If a product is defective consumers may, in addition to any other rights which they may have under consumer law in the UK and Ireland, avail themselves of the rights contained in: for products purchased in Ireland: the Sale of Goods Act, 1893 (in particular Sections 12, 13, 14 and 15), the Sale of Goods and Supply of Services Act, 1980 and the European Communities (Certain Aspects of the Sale of Consumer Goods and Associated Guarantees) Regulations 2003 (S.I. No. 11/2003); for products purchased in the UK: the Sale of Goods Act 1979 (in particular Section 12), the Supply of Goods and Services Act 1982 (in particular Section 2) and the Sale and Supply of Goods to Consumers Regulations 2002.
